NAMPO 2012

Nampo 2012 het ook gekom en gegaan. Baie dankie aan elke teler wat bereid was om hul diere vir ons te "leen" vir uitstalling vir die week wat ons daar was. Dankie aan die touleiers wat so getrou gehelp het met die opruim en skoonhou van ons stalletjies. Dankie aan elke besoeker wat kom oë wys het. And last, but not least... dankie aan die personeel vir opoffering om 'n hele week in die kraal te spandeer! Dit was 'n groot sukses en ons het baie navrae om te hanteer.

STOCKMAN'S SCHOOL - don't miss this one!!

The 2012 Stockman's school will again host some of the very best cattle breeding experts in the Industry. The three International speakers are arguably the leaders in their respective countries. Professor Steve Miller has a CV that would be the envy of any cattle breeding geneticist/consultant and is also the consultant to Lee Leachman whom made such a positive impression last year. Ian Locke is a hand-on practical large beef producer and is an industry leader in Australia and Dr Roger Hunsley from the USA needs no introduction. Combine these speakers with the eighteen local speakers and you have the very best school in Africa. In fact, world leader's in the beef industry are on record as saying that this is the best school that they have ever attended in the world. These speakers are sponsored by Unistel. See programme for the Stockman's School at <http://www.stockmanschool.co.za/home/stockmanschoolforcommercialproducers/2012programme>

NOTIFY - VERY IMPORTANT:

Performance Testing: How many weights can be submitted per trait – Brad Crook, Australia. “The database will allow you to add as many weights as you like. The BREEDPLAN analysis, on the other hand, will only use the FIRST TWO weights it finds for each of 200-, 400- and 600- day weight. For mature cow weights, it will use (up to) the FIRST 4 WEIGHTS it finds.

So if you have 3 weights, one at 100 days, one at 110 days and one at 280 days - all 3 would be considered 200-day weights. But only the first two - at 100 and 110 days - would be used in the analysis. And that is a pity, because the 100 and 280 days records would give more meaningful information (from a repeated records perspective) compared to two weights that differ by 10 days.

Likewise, I had a problem with one of the SA breeds where cow weights were recorded every month along with calf weights. It meant that a cow may have had her allocation of 4 weights max used up from one year only, whereas one weight per year for 4 years would be MUCH more meaningful.

There is also the problem at times of breeders re-submitting the same records, but with a different date – which should not be done.”

NAMIBIA BEOORDELAARS BLY OP HOOGTE

Die Simmentaler/Simbra Beestelersgenootskap het op 7.6.2012 'n baie suksesvolle Beoordelaars Simposium gehou wat deur 15 beoordelaars bygewoon is. Die Simposium is in samewerking met die Suider Afrikaanse Genootskap aangebied en verseker dat die teelbeleid van die Simmentaler en Simbra ook in die skouring toegepas word. Simmentaler en Simbra beoordelaars het om 09h00 by Stephan Voigts op die plaas bymekaar gekom. Die Simposium is deur Fred Dell, Hoof Tegnieuse Adviseur, aangebied. Van die besprekingspunte was: Beoordelaar as Ambassadeur van ons Rasse wat gegaan het oor optrede binne en buite die ring, etiese kode en dat beoordeling 'n opvoedings- en opleidingstaak is. Ander punte was rolkloue en vlak kloue, uiers, skrotum, skedeklassifikasie, prolaps en beoordeling van groepsklasse, screening by veilings, bespieroing by bulle, skou verbloemings en ander.

Na 'n heerlike middagete is daar 'n praktiese sessie gehou waar klasse van verskillende diere bespreek is. Die positiewe gesindheid wat in die oggend sessie opvallend was het ook hier in die kraal weerspieël. Diere is bespreek met toepassing van die teelbeleid, lewendige interaksie het plaasgevind. Praktiese uierklassifikasie is gedoen en tipe beskrywing was ook deel van die dag. Almal was dit eens dat Beoordelaars Simposiums meer gereeld gehou moet word. Beoordelaars gaan groot kostes aan om inligtingsdae en skoue by te woon en genootskappe is dankbaar hiervoor. Opleiding om as beoordelaar te kwalifiseer is 'n lang proses en verg baie insette.

‘n GROOT DANKIE AAN ALMAL WAT DIE MOEITE GEDOEN HET OM DIE SIMPOSIUM BY TE WOON!!!
