Society: 051 – 446 0580

## **8. MANUAL**

The SIM Manual (Stud Breeders Manual) is available on the website.

<http://www.simbra.org/Documents/2017/SIM%20Guide.pdf>

## 9. WEEFSEL MONSTERS BENODIG

Kontak asb. vir Amari by 051 – 446 0580 of [amari@simmentaler.org](mailto:amari@simmentaler.org) indien u Simmentalers aan die volgende voldoen:

- Oogkanker:
  - 10 monsters van bevestigde oogkankers;
  - 10 monsters van koeie/koeilyne waar daar geen rekord van oogkanker is nie.
- Kroesharig:
  - 10 monsters van die swakste kroeshaar;
  - 10 monsters van die gladste/kortste haar.

## 10. BLEKA TRUST INLIGTINGSDAG

'n Suksesvolle inligtingsdag is gehou deur Bleka Simbras 9 Mei 2017 by Daniëlskuil. Onderwerpe en sprekers vir die dag het ingesluit:

- Bles de Klerk wat gefokus het op koeilyne en bloedsamestellings van sy Simbras: wat wissel tussen 55% tot 68% Simmentaler en die res Brahman. "Almal beseft die belangrikheid van tipe. Jy moet Simmentaler en Brahman kan sien in 'n Simbra."
- Flaf Lauwrens het *Strukturele korrektheid* bespreek: hoe die Simbras moet lyk en nie moet lyk nie.
- Amari Bornman het die onderwerp *Teelwaardes wat vir verskillende eienskappe beskikbaar is en hoe stoettelers en/of kommersiële telers dit moet gebruik* bespreek. Teelwaardes moet as 'n hulpmiddel vir seleksie gesien word.
- Waarom gebruik ek Simbra bulle? Inus de Jager het die kruisteling tussen Simmentaler en Brahmane gestaak en met Simbras begin teel.

## 9. TISSUE SAMPLES REQUIRED

Please contact Amari at 051 – 446 0580 or [amari@simmentaler.org](mailto:amari@simmentaler.org) if your Simmentalers meet the following requirements:

- Eye cancer:
  - 10 samples of confirmed eye cancer;
  - 10 samples of cow/cow lines where there is no record of eye cancer.
- Curly coat:
  - 10 samples of the worst frizzed coat;
  - 10 samples of the smoothest/shortest hair.

## 10. BLEKA TRUST INFORMATION DAY

A successful information day was held by Bleka Simbras on 9 May 2017 at Daniëlskuil.

Topics and speakers for the day included:

- Bles de Klerk who focused on cow lines and blood compositions of his Simbras: ranging from 55% to 68% Simmentaler and the rest Brahman. "Everyone realizes the importance of type. You must see Simmentaler and Brahman in a Simbra."
- Flaf Lauwrens discussed the *Structural correctness*: how the Simbras should look and should not look.
- Amari Bornman discussed the subject *Breeding values available for different characteristics and how breeders and/or commercial breeders should use it*. Breeding values should be seen as a tool for selection.
  - Why do I use Simbra bulls? Inus de Jager no longer continued with the cross breeding between Simmentaler and Brahman and started breeding with Simbras.

Eerstens vir die goeie temperament van die Simbra asook dat hul mediumraam tipe beeste is, hul vrugbaarheid en dat hul steeds swaar speenkalwers teel.

Simbra & Simmentaler veilingsbulle is ook deur die loop van die dag besigtig en bespreek.

### **11.GENETIESE KOPPELING**

Sien asseblief aangehegte dokument.

### **12.SIMBRA PROMOSIE ITEMS**

Besoek gerus die webtuiste om bestellings aanlyn te plaas.

<http://www.simbra.org/Online/Shop.htm>

First of all, for the good temper of the Simbra, and for their medium frame type, their fertility and that they still breed heavy weaning calves.

Simbra & Simmentaler auction bulls were available for viewing and discussed during the day.

### **11. GENETIC LINKAGES**

Please see attached document.

### **12. SIMBRA PROMOTIONAL ITEMS**

Visit the website to place order online.
